New York, N. Y., April 4th, 1905. Nearly a million dollars in cold cash has been spent in the development and equipment of the TREADWELL properties and ore bodies have been uncovered on it vast in extent and in richness fully equal to the famous ore bodies of the United Verde. The Company's 250-ton smelter has been completed and is ready to run. Its capacity will be in-

in the year to one thousand tons a day. There is ore in abundance waiting for it and

To the Stockholders of

UNION PACIFIC RAILRGAD CO.

Of the \$100,000,000 First Lien Convertible Bonds originally issued by your Company \$54,255,000 have been converted up to date into common stock, and it is assumed that the remainder will likewise be converted before May, 1908. Fixed charges have thereby been greatly diminished and the equity behind the preferred stock correspondingly increased, and with the enhanced credit of your Company the market value of the preferred stock is and for some months has been about par. This situation enables the company to pursue the wise and conservative policy which requires that a corporation whenever possible should finance at least a part of its capital requirements—especially such as arise in connection with the acquisition of stocks of other companies—through the issue of stock rather than through the creation of fixed interest hearing obligations. The advantages of such a policy are obvious and will enure to the benefit of the holders of both common and preferred stock in that the creation of additional bonded indebtedness ranking and carrying fixed charges ahead of the stock may be avoided and the credit and position of the Company further advanced. Your company, moreover, will be placed in a position admitting in due time of a more liberal stitude toward the distribution of its surplus income.

As the common shock should not in the near future be still further increased; they do, however, consider it prudent that your company should prepare at this time to finance coming requiremental through issue of preferred stock.

Your Directors, therefore, recommend the creation of an additional issue of preferred stock, at par. When practicable, to an extent reestablishing the formerly existing proportion between the common and preferred stock.

Your Directors, therefore, recommend the creation of an additional issue of preferred stock, at par. When practicable, to an extent reestablishing the formerly existing proportion between the common and preferred stock and additional issue of preferred stock UNION PACIFIC RAILBOAD CO.

WOULD LIVE IN CEMETERY. Man Plans to Build a Shanty Near the

Tomb of His Ancestors. NOBTH SCITUATE, Mass., April 23 .-Israel M. Barnes of North Scituate is to give up his well furnished eight room house on Scituate road to build and occupy a three room shanty in the old family graveyard of his ancestors if the law will permit him to do so. Already relatives have taken action to prevent him carrying out the plan. Barnes plans to build the shanty beside a tomb where his great grandparents and his parents are buried. He has an oppor-

There are many descendants who protested against Barnes's plan, and when it became known one of them consulted an attorney to prevent any shanty being built. Barnes declares that he has been unable to buy a lot of land anywhere in the vicinity upon which he cares to build, and for this reason he will build in the cemetery.

FORMING THE LOBSTER TRUST. Syndicate Gets Options From Nearly All

Down East Dealers. ROCKLAND, Me., April 23.-James W. Leslie of Boston, representative of the proposed lobster trust, left to-night for Millbridge, having completed an inventory of the Rockland wholesale plants. His visit to Millbridge will complete a tour of all

the principal lobster ports in this country. Options, mostly for one year, have been obtained from nearly all of the dealers,

and Mr. Leslie informed The Sun correspondent that the syndicate practically had control of the industry in this country. He has not visited the maritime provinces of Canada in person, but is well satisfied ever the reports of his agents there.

He intimated that the lobster interests would be syndicated this year. Among the results which he says will accrue are better prices to the fishermen and lower prices to the public, because of the great saving in handling the product.
